

Protocol for Objective Homeopathic Semiology^{1,2,3}

“The experimenter who does not know what he is looking for will not understand what he finds” – Claude Bernard

Name: _____ Date: _____
Diagnostic: _____ Register: _____
Homeopathic medicine: _____

MIND: Abrupt, rough / Absentminded / Absorbed, buried in thought / Abusive, insulting / Activity: amel., desire to, mental, overactive / Admonition agg. / Affectation / Affectionate / Ailments from / Amativeness / Anger, irascibility / Answers: abruptly, aversion, difficult, hastily, imaginary questions, incoherently, incorrectly, monosyllable, refuses, reflects long, repeats the question first, slowly, stupor returns, etc. / Anticipation / Anxiety / Aphasia / Astonished / Attack others, desire to / Automatism / Bargaining / Bed, aversion to / Begging, supplicating / Bewildered, dazed, things look strange; loss of sense of location / Bite, desire / Blasphemy / Brutality / Capriciousness / Carried / Catalepsy / Catatonia / Cautious / Censorious / Chaotic, confused behavior / Cheerful / Clairvoyance / Climb / Clinging / Company: agg., amel., aversion, desire / Complaining / Concentration / Confusion of mind / Consolation agg. / Contemplative / Contemptuous / Content / Contradict, disposition to / Contradiction / Contradictory / Contrary / Counting continually numbers / Courageous / Cowardice / Crawling / Croaking / Cruelty / Cursing / Dancing / Defiant / Delirium / Delirium tremens / Delusions / Dementia / Desires: full of, nothing, etc. / Despair: heat, perspiration, recovery / Disobedience / Destructiveness, break, tears, etc. / Disgust / Dirty / Doubtful, recovery / Drinking, mental symptoms after / Dullness / Hard / Eat / Ecstasy / Embittered, exasperated / Embraces / Envy / Escape / Estranged / Exhilaration / Fear, apprehension, dread / Feigning, sick / Flatterer / Foolish behavior / Frightened easily / Gestures / Gluttony / Grimaces / Groping as if / Hide / Horrible things, affect profoundly / House, desires to go / Howling / Hurry, haste / Hydrophobia / Hypochondriasis / Hysteria / Imitation, mimicry / Indifference, apathy / Indignation / Indiscretion / Injure himself / Inquisitive / Insanity, madness / Insolence / Intolerance / Intriguer / Introspection / Irritability / Jealousy / Jestings / Jumping, bed, out of / Kicks / Kill / Lamenting / Lascivious / Liar / Laughing: causeless, constant, convulsions, giggling, hysterical, immoderately, involuntarily, loudly, never, sardonic, serious matters, silly, sleep, spasmodic, trifles, etc. / Light: agg., aversion, desire, shuns / Looked at, cannot bear / Loquacity / Mania / Meditation / Memory: active, confuse, weakness / Menses / Mildness / Moaning, groaning, whining / Mischievous / Monomania: repeated actions / Mood: agreeable, alternating, changeable, insupportable, repulsive / Moral feeling, want of / Morose / Naked, wants to be / Narrating her symptoms agg. / Obscene, lewd / Obstinate / Occupation amel. / Optimistic / Playful / Pessimist / Praying / Presumptuous / Pull, hair / Quarrelsome, scolding / Quiet, wants to be / Rage, fury / Recognize, does not / Refuses: help, medicines, treatment / Religious affections / Reserved / Resignation / Restlessness / Reverence / Retard, mental / Rudeness / Runs about / Sadness, despondency, depression / Schizophrenia / Scratches / Secretive / Senses: acute, confuses, dull / Sensitive, oversensitive: external impressions, fever,

light, noise, pain, touch, etc. / Sentimental / Serious / Servile / Shameless / Shining / Shrieking / Sighing / Singing / Slander / Smaller, things appear / Smiling / Spitting / Staring, thoughtless / Striking / Sulky / Suspicious / Sits / Somnambulism / Starting / Stupefaction / Stupor / Suicidal disposition / Superstitious / Suppressed diseases, mental symptoms agg. / Sympathy / Talk / Teasing / Temerity / Threatening / Theorizing / Throws things / Thunderstorm, mental symptoms / Time: quickly, slowly / Timidity / Torments those about him / Touch everything / Touched: aversion, ticklishness / Torpor / Tranquility, serenity, calmness / Unconsciousness, coma, stupor: answers, fever, eyes, incomplete, shrieking, muttering, uremic, etc. / Understanding / Vanity / Verses, makes / Violent / Wander, roving / Wearisome / Weeping / Well / Whistling / Wildness / Witty / Yielding disposition.

Obs.: _____

HEAD: Abscess / Anemia of the brain / Bend head / Blood Vessels, temples, distended / Bores head in pillow / Caries / Cephalic Hematoma / Closing, premature, fontanel / Coldness, chilliness / Concussion of brain / Congestion, hyperemia / Convulsions of the right side / Dandruff / Drawn / Dropsy / Edema: scalp, glabella / Eruptions / Erysipelas / Exostosis / Falling / Fungus / Hair: baldness, bristling, brittleness, color changes, dryness, electrified, falling, gray, greasy, lusterless, painful, pull, sticker, tangles / Hands: grasps, holds head with, leans on, rubs with / Heat: with coldness of body, etc. / Hemorrhage, Cerebral / Hold up head, unable to / Hydrocephalus / Injuries, ailments / Inflammation: brain, meninges, periosteum / Itching of scalp / Jerking / Knocks head / Lean on something, desire / Lice / Lupus / Motions of head / Oily forehead / Open fontanel / Pain: unconsciousness, etc. / Paralysis of brain / Perspiration of scalp / Raise the head: difficult to, frequently, unable to / Restlessness / Rolling in / Rubbing / Scratching / Sensitiveness: to touch / Shocks, blows, jerks / Softening of brain / Sunstroke / Swelling / Tickling / Tingling / Trembling / Tumor / Turned to left convulsions / Twisting head / Twitching (of muscles of the head) / Ulcers / Uncovering agg. / Washing agg. / Wens.

Obs.: _____

EYE: Agglutinated / Anemia of: conjunctiva, retina / Astigmatism / Atrophy of optic nerve / Bleeding / Blinking / Blueness of: conjunctiva, sclera, lids / Boils in lids / Brilliant / Cancer / Cataract / Chemosis / Close: desire to, difficult, involuntary, must, spasmodic closure / Closed / Condylomata: canthi, cornea, eyebrows, eyelids, sclerotics / Conical cornea / Contraction of eyelids / Cracks in canthi / Crawling / Degenerated cornea / Dermoid, swelling / Detachment of retina / Discharges of mucus or pus / Discoloration: iris, etc. / Distorted / Dryness / Dullness / Ecchymosis / Embolism of retina / Eruptions / Esophoria / Excoriation, lids / Extraversion of lids / Falling of lids / Filmy / Fistula / Glassy, appearance / Glaucoma / Glazed / Granular lids / Gum / Hair, falling: brows, eyelashes / Hardness: meibomian glands, lids / Hyperesthesia of the retina / Hypertrophy of conjunctiva / Inflammation / Injected / Injuries from / Insensibility / Inversion of lids / Irritation / Itching / Lachrymation / Looking steadily / Lupus / Melanosis / Movement of eyeballs: constant, convulsive, involuntary (nystagmus), pendulum, rolling, sideways / Narrowing of intervals between eyelids / Nodules / Nystagmus / Onyx (festering infiltration) / Opacity of cornea / Open the lids / Opening the lids, difficult / Openness, spasmodic / Pannus (vascular infiltration) / Paralysis: iris, lids, muscles of eyeballs, optic nerve / Perspiration on brows and lids / Photomania / Photophobia / Protrusion / Pterygium (fibrosis)

/ Pupils: angular, contracted, dilated, insensible to light, sluggish, unequal / Quivering / Redness / Restless eyes / Rub, desire to / Scrofulous, affections / Sensitive / Small, left eye smaller than right / Snow, ailments / Spasms of lids / Spots on the cornea / Staring / Sticky lids / Stiffness of: eyeballs, muscles about the eyes, lids / Strabismus / Stricture of lachrymal duct / Styes / Sunken / Swollen / Tears: acrid, burning, oily, etc. / Thickening: conjunctiva, cornea, lids / Tingling / Tumors on lids / Turned / Twitching / Ulceration: conjunctiva, cornea, lids / Unsteady look / Vesicles: cornea, sclera / Wild look / Winking / Wipe, inclination to / Wrinkled conjunctiva / Yellowness.

Obs.: _____

EAR: Abscess / Adhesions, middle ear / Bald spot above / Boring fingers in / Calcareous deposit on tympanum / Caries / Catarrh, Eustaquian tube / Coldness / Contraction / Discharges / Discoloration: blue, brown, livid, redness / Dryness / Eruptions / Excoriation behind / Exostosis / Fungous excrescences / Heat / Inflammation / Itching / Lumps behind, hard / Lupus on the lobe / Moisture: behind, concha, margin / Nodes, copper-colored / Odor, bad / Pain / Perforation of tympanum / Perspiration / Polyps / Rough epidermis / Sensibility, increases / Sensitive lobe / Steatoma behind / Strokes / Suppuration: behind or front of ear, middle ear / Swelling / Tingling / Trembling in / Tubercle, hard: behind the ear, lobe / Tumors: cystic, steatoma, wens / Tympanum: congested, thickened / Ulceration: front, lobe, tragus, tympanum / Wartlike / Wax: black, dry, foul, hardened, increases, red, serous, thin, whitish, etc. / Wens.

Obs.: _____

NOSE and SMELL: Abscess / Adenoids / Agglutination of nostrils / Blood, congestion of / Blow, constant inclination to / Boring with fingers / Broad and Flat / Cancer / Caries / Catarrh / Chapped nostril / Coldness / Congestion / Contraction / Coryza / Cracks: corners, nostrils, septum, tip, wings / Desquamation / Dilated nostrils / Diphtheria / Discharge / Discoloration: black, bluish, brown, pale, redness, yellow saddle / Distension / Dryness / Dyspnea in nose / Edema / Epistaxis / Excoriation, inside / Exostosis / Food on swallowing / Freckles / Gangrene / Hair falls out / Hardness / Heat / Inflammation / Itching / Knobby tip / Laceration / Lipoma / Liquids comes out on attempting to swallow / Lupus / Membrane, mucous: detached, destroyed, gangrenous / Motion of wings / Necrosis / Nodosities / Nostrils drawn in / Obstruction / Odors / Oily / Ozena / Pain / Perforated septum / Perspiration / Picking / Pimples / Pointed / Polyps / Protuberances / Puffiness / Pulsation / Quivering / Rattling / Respiration noisy / Scurfy / Shiny / Sides, alternating / Sinuses / Sneezing / Snuffles / Sooty / Spasms / Stiff / Sunken / Swelling / Thick / Tingling / Tumor / Twitching / Ulcers / Veins varicose / Warts / Whistling / Wrinkled, skin.

Obs.: _____

FACE: Abscess: antrum, jaw, lip, parotid glands / Acridity, upper lip / Adhesion of skin to forehead / Angioma / Aphthae on lips / Beard falling / Bleeding of lips / Bloating / Cancer / Caries of bone / Chapped / Chewing motion of the jaw / Chilliness / Chloritic / Clenched jaw / Coldness / Congestion / Contraction / Convulsions, spasms / Cracked / Cracking in jaw when chewing / Cramp: cheek, chin, jaws, lips, malar bone, mastoid, maxillary articulation / Discoloration: ashy, black, bluish, bluish-red, bronzed, brown, brownish-yellow (forehead at

edges of hair), changing color, chloasma, copper colored, cyanotic, dark, dirty looking, earthy, grayish, greenish, lead colored, marbled, mottled, pale, pink spots, red, sallow, sickly, white spot, yellow / Dislocation of jaws / Distortion / Drawn / Dropping of jaw / Dryness / Emaciation / Empyema, maxillary sinus / Enlarged: jaw, parotid glands, submaxillary glands / Eruptions / Erysipelas / Everted lips / Excoriation / Exostosis / Expression: absent, anxious, astonished, besotted, bewildered, confused, distressed, fierce, foolish, frightened, haggard, happy, idiotic, intoxicated, old looking, pinched, ridiculous during sleep, sickly, sleepy, stupid, suffering, tired, vacant / Falling: mustache, whiskers / Freckles / Gangrene / Hair, growth of: children, women / Heat / Hippocratic / Indurations / Inflammation / Involuntarily, mouth opens / Itching / Licks lips during heat / Linea nasalis / Lockjaw / Membrane on: mouth (corners of), lips / Motion: jaw, lips, muscles / Mustache in women / Necrosis of jaw / Nodosities / Oily / Pain / Paralysis / Peeling, lips / Perspiration / Picking: chin, lips / Pointed, peaked / Quivering / Risus sardonicus / Rough skin: forehead, mouth, temples / Rubbing with fist during cough / Saddle across the nose / Scabby / Sensitive / Shiny / Shortened, lower jaw / Shriveled / Slimy lips / Smutty / Sordes on the lips / Spots / Sticking together, lips / Stiffness, muscles / Sunken / Suppuration: chin, jaw / Swelling / Tension of skin / Thick / Tingling / Trembling / Tumor, cystic on: cheek, lips, parotid / Twitching / Ulcers / Veins distended / Warts / Wash in cold water, desire to / Waxy / Wrinkled.

Obs.: _____

MOUTH: Abscess of gums / Adheres to roof of mouth, tongue / Aphthae / Bite nails / Bleeding / Blotches / Boils at gums / Cancer / Caries: gums, palate / Chorea, tongue / Clammy / Closed / Coated, tongue / Cold: breath, tongue / Condylomata / Congestion of gums / Contracted, tongue / Contraction, spasmodic / Corrugated, tongue / Covers mouth with hand / Cracked: gums, tongue / Crackling of gums on pressure / Crusts dry, scaly / Denuded spots on tongue / Desquamation / Detached from teeth, gums / Discoloration: black, blue, brown, dark, dirty, gray, green, pale, purple, red, violet, white, yellow, etc. / Dryness / Excrescences painful / Exostosis at roof of mouth / Ecchymoses / Epulis / Fingers in the mouth / Fistula, gums / Flabby tongue / Folded like little bags on edges, tongue / Food escapes from mouth when chewing / Froth, foam from mouth / Furry: gums, tongue / Gangrenous: gums, tongue / Glandular swelling (cheeks, inside) / Glazed, palate / Hard, palate / Heat / Herpes on tongue / Hot breath / Indented: gums, tongue / Induration: cheek, gums, palate, tongue / Inflammation: cheek, gums, palate, tongue / Lacerated tongue / Lame tongue / Leather, tongue feels like / Mapped tongue / Membrane / Mercurial affections of gums / Motion of mouth: constant, difficult, hanging out, side to side, wanting / Mucous membrane / Mucus, slime / Nodosities: gums, palate, tongue / Odor (breath): bad, cadaverous, cheesy, garlicky, metallic, musty, offensive, onions, putrid, sickening, sour, sweetish, urine, etc. / Open / Pain: cheek, gums, palate, tongue / Papillae, tongue: enlarged, erect, reddened / Paralysis: palate, tongue / Pasty, tongue / Pimples: cheeks, gums, palate, tongue / Patches, syphilitic / Put everything in mouth / Pointed tongue / Protruded: gums, tongue / Itching / Pulsation: gums, palate, tongue / Purpura / Pustules: gums, tongue, palate / Putrid gums / Ranula / Ringworm / Roughness: gums, lip, tongue, palate / Saliva: acid, acrid, albuminous, alkaline, astringent, bloody, brownish, clammy, cool, fetid, frothy, gluey, green, hot, irritating the skin, musty, oily, offensive, purulent, reddish, ropy, scanty, slimy, soapy, suppressed, thick, thin, viscid, white, yellow, etc. / Salivation / Scabs at gums, gangrenous / Scorbutic gums / Scratches, gums / Sensitive / Shriveled: gums, palate, tongue / Smacking tongue / Smooth, shining, glazed, glistening, glossy tongue / Soft

tongue / Softening of gums / Spasms: mouth, tongue / Speech / Spitting constantly / Spongy: gums, tongue / Sticky, viscid / Stiff tongue / Stomatitis, ulcerative / Suppuration: gums, tongue / Swelling: cheek, gums, tongue, palate / Thrush / Trembling of tongue / Tubercles, painful: gums, tongue / Tumors / Twitching: gums, tongue / Ulcers: base (black), bleeding, deep, edges (elevated), fetid, flat, gangrenous, grayish, painful, white, yellow, etc. / Varicose veins on tongue / Varnished, tongue looks / Vesicles: bleeding, gangrenous, painful, suppurating, whitish, yellow / Warts / Watery, look, gums / Wetting lips constantly / Withered tongue / Wrinkled: palate, tongue.

Obs.: _____

TEETH: Abscess of roots / Adhere together / Bite, together, desire / Bites: hands (sleep), tumbler (drinking) / Bleeding / Breaking off / Caries, decayed, hollow / Chattering / Clench teeth together, constant inclination to / Clenched firmly / Coldness / Cracking when rubbing / Crumbling / Cupped in children / Deformed, distorted / Dentition, difficult / Dirty looking / Discharge from carious tooth / Discoloration: black, brown, dark, gray, spotted, yellow / Dwarfed / Enamel deficient / Grinding / Inflamed dentin / Itching / Jerk / Looseness / Mucus / Odor offensive / Pain / Periostitis / Proud flesh, surrounded by / Sensitive, tender / Serrated / Slime on teeth / Sordess: black, bloody, brown, dark / Stick together as if glued / Sticky / Twitching / Ulceration of roots / Water coming from, sour, fetid / Wedge-Shaped / Wisdom teeth, ailments from eruption of.

Obs.: _____

THROAT: Abscess / Adenoids / Adhesive, sticky as if / Aphthae / Blistered / Blood oozing / Bubbling in esophagus / Calcareous deposit / Cancerous / Caseous deposits in tonsils / Catarrh / Cheesy looking spots / Choking, constricting: bending the neck, bowing the head, cardiac pain, clearing the throat, clothing agg., convulsive, coughing, drinking, eating, esophagus (swallowing, inspiration), headache, lying down, menses, palpitation, paroxysmal, raising arm, sleep, speaking, swallowing, writing / Clucking sound, esophagus / Coated / Condylomata / Constriction / Cracking / Cramp / Discoloration: black, bluish tonsils, copper-colored, dark, livid, mottled, pale, purple, redness (network, pharynx, spots, tonsils, uvula), white spots, yellow spots / Dryness / Elongated uvula / Enlargement, tonsils / Erosion / Excoriation / Fissured pharynx / Food lodges in / Fullness / Gangrene / Glazed, appearance / Granulated / Gurgling in esophagus: convulsing, coughing, drinking, sleeping / Hawk, disposition to / Hawks up cheesy lumps / Heat / Induration of tonsils / Inflammation: tonsils, esophagus, pharynx, uvula / Irritation / Itching / Jerking / Liquids taken are forced into nose / Mapped / Membrane, exudation, diphtheria: fauces, pharynx, tonsils, uvula / Mucous patches / Mucus / Obstruction / Pain / Paleness / Paralysis / Pimples on uvula / Pulsating / Pustules / Puts finger in throat / Reversed peristaltic action of esophagus / Rigidity, stiffness / Scab at posterior wall, greenish yellow / Sensitive / Shriveled uvula / Singing agg. / Spasms, spasmodic constriction, convulsions: anger, esophagus (swallowing), swallowing, water (sight) / Spots / Strangle easily / Stricture of esophagus / Suppuration: tonsils / Swallowing: constant, difficult, disposition to, impeded, impossible, incomplete, involuntary / Swelling: edematous, palate, tonsils, uvula / Syphilitic affections / Tension / Tingling / Twitching / Ulcers: esophagus, fauces, pharynx, tonsils, uvula / Varicose: esophagus, pharynx, tonsils / Vesicles: pharynx, tonsils, uvula / Water, full of.

Obs.: _____

EXTERNAL THROAT: Abscess / Clothing agg. / Coldness / Congestion / Constriction: lying, sleep; throat pit; thyroid gland / Cracking in muscles / Cramp in side / Discoloration: blue, brown, purple, redness, yellow / Distension left / Distorted / Eruption / Excoriation from clothes / Goitre / Heat / Induration of glands: cords, like knotted / Itching / Jerks left / Fibrositis, cervical / Fistulae / Pain: cervical glands, sides, throat pit, thyroid gland / Paralysis / Perspiration / Presses throat with both hands / Pulsation: carotids, glands, goitre, sides / Sensitive to touch / Spasms, sides of neck / Spots / Stiffness of side: left, right / Straining muscles / Stretching / Swelling: cervical glands, sides, thyroid gland, veins / Tension, sides / Tight around neck and waist; cannot bear anything / Tingling, tickling / Torticollis / Trembling / Tumors / Twitching / Ulcers / Uncovering throat agg. / Warts.

Obs.: _____

STOMACH: Aerophagia / Appetite: capricious, constant, diminished, easy satiety, increased, insatiable, ravenous, wanting / Bubbling / Cancer / Clothing: amel., disturbs / Clucking / Contraction / Convulsions in / Croaking like frogs / Disordered / Distension / Emotions are felt in / Induration: pylorus, walls / Eructation / Flabbiness / Foreign body / Gaggling / Gangrene / Gurgling / Gouty, metastasis / Hardness / Heartburn / Hiccough / Inactivity / Indigestion / Inflammation / Irritation / Itching epigastrium / Jerking / Loathing of food / Nausea / Pain / Perspiration at pit of stomach / Pulsation / Relaxation of pylorus / Retching / Retraction / Rumbling / Sensitiveness: pressure, touch / Shaking / Shock / Slow digestion / Spits up food / Swashing / Thirst: burning, chill (after, before, during), convulsions, eating, extreme, heat, inability to swallow, large quantities, perspiration, small quantities, unquenchable, vomiting / Thirstless / Tickling / Tingling / Trembling / Twitching / Ulcers / Uneasiness / Vomiting.

Obs.: _____

ABDOMEN: Abscess: inguinal region, liver, spleen, walls / Aneurysm / Atrophy of liver / Bubbling: inguinal region, liver, sides, umbilicus / Bubo / Cirrhosis of liver / Clothing, sensitive to / Clucking / Cold, sensitive to / Coldness in / Congestion of hypochondria / Contraction / Covering: agg., amel. / Cracking and crackling / Cracks on surface of abdomen / Cramp, turning body / Diarrhea / Discharge from umbilicus / Discoloration: blackness, blotches, blue spots, brown spots, greenish, inflamed spots, redness (spots, umbilicus), yellow / Distension: hypochondria, hypogastrum, ileocecal region, inguinal region, sides, umbilical region / Dropsy, ascites / Emaciation of muscles of abdomen / Enlarged: glands (inguinals, mesenterics), liver, spleen / Eruptions / Erysipelas / Excoriations, inguinal region / Excrescence at umbilicus, moist / Fat / Fatty degeneration of liver / Fistulae of inguinal glands / Flatulence / Gangrene / Gurgling / Gouty metastasis / Hard: liver, spleen, hypochondria, hypogastrum, inguinal region, pancreas, umbilicus / Hardness (induration) glands: inguinal, mesenteric / Heat / Hernia: femoral, inguinal, umbilical / Hold, must / Ileus paralytic / Impaction / Inflammation: appendicitis, duodenum, inguinal glands, liver, pancreas, spleen, typhilitis (perityphlitis), umbilicus / Intussusception / Itching / Liver and region of / Moist in umbilicus / Movements in / Movements of the foetus / Noises / Pain: glands, hip region, hypochondria, hypogastrum, ileocecal region, iliac region, ilium (crest of), inguinal region, liver, sides, spleen, umbilicus /

Pancreas / Paralysis of intestines / Pendulous abdomen / Peristalsis: increased, reversed / Perspiration / Portal congestion with piles and dysmenorrhea / Protrusion: umbilicus / Proud flesh umbilicus / Pulsation: hypochondria, hypogastrium, ilium (crest), inguinal region, liver, sides, spleen, umbilicus / Restlessness, uneasiness / Retraction: umbilicus / Rumbling / Sensitive, skin / Shaking / Shocks / Shriveled or witted appearance / Shuddering / Spasms of muscles / Spleen, complaints of / Stiffness / Stricture of intestines / Suppuration / Swelling: iliac region, inguinal region, liver, mesenteric glands, side, spleen, umbilicus / Tabes mesenterica (Tuberculosis) / Trembling / Tumors / Twitching and jerking / Ulcers / Veins / Zona (herpes).

Obs.: _____

RECTUM: Abscess: coccyx, perineum / Aphthous condition of anus / Black / Boils in anus / Cancer / Catarrh of the rectum / Cauliflower excrescence / Cholera: infantum, morbus / Condylomata / Congestion / Constipation / Constriction, contraction, closure / Diarrhea / Distension / Dryness / Dysentery / Eruption: anus, perineum / Excoriation / Flatus / Fissure / Fistula / Grumbling / Gurgling in rectum / Hemorrhage from anus / Hemorrhoids / Inactivity of rectum / Inflammation / Insensibility / Involuntary stool / Irritation, frequent / Itching / Jerks / Moisture / Open, anus / Pain / Paralysis / Perspiration about the anus and perineum / Polyps / Prolapsus / Pulsation / Redness of anus / Relaxed anus / Retraction / Sensitive / Shock, electric-like / Spasms in / Standing, stool passes better on / Stricture / Swelling of anus / Tingling / Trembling in anus / Tubercle on perineum / Twitching / Ulceration / Unnoticed stool / Urging (desire).

Obs.: _____

STOOL: Acrid, corrosive, excoriating / Albuminous / Balls, like / Bilious / Black / Bloody / Bluish / Brown / Changeable / Chopped / Clay-Like / Clay-Colored / Coffee grounds, like / Cold / Constant discharge / Copious / Cream-Colored / Crumbling / Curdled / Dark / Dog's, like a / Dry / Earlier, every day / Fatty, greasy / Fermented / Filaments like hair in feces / Flaky / Flat / Flatulent / Floccules / forcible, sudden, gushing / Frequent / Frothy / Granular / Gray / Green / Hard / Hazelnuts, like / Hot / Knotty, nodular, lumpy / Large / Later, every day / Lienteric / Light-Colored / Lime like connected / Long, narrow / Lumps like chalk / Lumpy and liquids / Mealy sediment, with / Membranous / Moss, like / Mucous / Mushy / Noisy / Odor / Odorless / Olives, like / Pasty / Pitch-Like / Purulent / Reddish / Rice grains, like / Sand or gravel in / Scanty / Scrapings of intestines, like / Sheep dung, like / Shooting out / Slate-Colored / Small / Soft / Sputtering / Squared / Stringy / Suppressed / Tallow, like / Tarry-Looking / Tenacious / Thin, liquid / Tough / Watery / White / Yeast, like / Yellow.

Obs.: _____

BLADDER: Calculi / Cartilaginous induration / Catarrh, mucus-pus / Chills spread from the neck off the bladder after urinating / Cramp in / Fungoid growths / Gangrene / Gas passes from / Hemorrhage / Hemorrhoids of / Inactivity of / Inflammation / Injury, operations after / Insensibility / Motion in / Pain / Paralysis / Paralytic / Polyps / Pulsation / Retention of urine / Rheumatic affections / Shocks, electric, extending to right thigh / Spasm / Spasmodic action of / Suppuration / Swollen / Thickening of walls of / Tenesmus / Tension / Tumors / Ulceration /

Urging to urinate (morbid desire) / Urination: dribbling (by drops), dysuria, feeble stream, frequent, interrupted (intermittent), involuntary, retarded, etc. / Weakness.

Obs.: _____

KIDNEYS: Abscess / Addison's disease / Catarrh / Inflammation / Lameness, region of / Pain / Pulsation / Suppression of urine / Swelling / Twitching, region of.

Obs.: _____

PROSTATE GLANDE: Emission of prostatic fluid / Enlargement / Fullness / Hardness / Induration / Inflammation / Irritation in / Jerking in region of / Pain / Suppuration / Swelling / Twitching.

Obs.: _____

URETHRA: Agglutination of meatus / Blue spot at meatus / Caruncle, vascular bleeding tumor of / Chordee / Clogged by pieces of coagulated mucus / Contraction / Cracks in meatus / Cramp / Discharge / Everted meatus / Excoriation of meatus / Excrescences / Fungoid growth / Hard node / Hardness / Hemorrhage / Induration, chronic / Inflammation / Irritation / Itching / Jerking / Moisture at meatus / Pain / Pulsation / Sensitive / Spasm / Stricture / Swelling / Tingling / Tumor / Twitching / Ulceration / Urging / Redness in meatus / Vesicles in meatus.

Obs.: _____

URINE: Acetonuria / Acrid / Albuminous / Alkaline / Bile, containing / Bloody / Burning (includes Hot) / Casts, containing / Cloudy / Cold / Color: black, blackish, bluish, brown, clay-colored, coffee, dark, greenish, mahogany, pale, red, sherry, smoke-color, violet, white, yellow (light) / Colorless / Copious (increased) / Cuticle forming on the surface of the / Frothy / Gelatinous / Indican, containing / Limpid / Milky / Muddy / Neutral / Odor / Odorless / Polypous formation in / Scanty / Sediment / Specific gravity: decreased, increased / Sugar / Thick / Viscid / Watery, clear as water / Whey-Like / Yeast-Like.

Obs.: _____

MALEM GENITALIA: Abscess: penis, testes / Adhere to scrotum, testes / Aphthae / Atrophy: penis, testes / Bearing down / Bleeding: prepuce, scrotum / Blennorrhoea of glans / Blue spots / Blueness: scrotum, glans / Bubo: burning, groins, suppurative / Cancer / Condylomata / Congestion, in scrotum / Contraction / Crab Lice / Cracks: glans, prepuce / Discoloration / Dryness of glans / Ectopia testis / Ejaculation / Elephantiasis scrotum / Empyocele / Enlarged / Erections / Eruptions: hairy parts, penis (glans, prepuce), scrotum / Excitability of genitals / Excoriation: penis, scrotum / Excrescences, testes / Firmness increased of testes / Fistulous openings at scrotum / Flaccidity, penis / Gangrene / Gurgling in testes / Hair falling off / Handling genitals / Hematocele / Hydrocele / Induration: penis, scrotum, spermatic cord, testes / Inflammation: penis, scrotum, seminal vesicles, spermatic cord, testes / Injures / Irritation of scrotum / Itching: penis, scrotum, spermatic cords, testes / Jerking in penis / Kryptorchism / Masturbation, disposition to / Metastasis / Moisture: glans, scrotum / Mucus

glans / Nodes glans / Nodules: scrotum, testes / Odor stinking / Pain / Perspiration: penis, scrotum / Phimosis / Phthisis / Pulsation / Quivering scrotum / Redness: glans, prepuce, scrotum / Relaxed, scrotum / Retraction: penis, scrotum, testes / Sarcocele / Scurf on inside of prepuce / Scurf spots, red, on corona / Semen dribbling / Sensitiveness: penis, scrotum, spermatic cords, testes / Shining scrotum / Shriveled: scrotum, spermatic cord / Smegma, increased / Softening of testes / Spots: penis, scrotum / Suppuration: prepuce, testes / Swelling: penis, scrotum, spermatic cords, testes / Tension: penis, scrotum, spermatic cords, testes / Thickening: prepuce, scrotum, spermatic cord / Tingling: penis, scrotum, testes / Tubercles: penis, spermatic cords, testes / Tumor, testes / Twitching: penis, scrotum, testes / Ulcers: penis, scrotum / Varicocele.

Obs.: _____

FEMALE GENITALIA: Abortion / Abscess: ovaries, vulva / Aphthae: vagina / Atony of uterus (inertia uteri) / Atrophy, ovaries / Blotches / Cancer: ovaries, uterus, vagina / Cheesy, deposits / Childbed / Cysts / Condylomata: uterus, vagina / Congestion: ovaries, uterus / Contractions: uterus, vagina / Cracks / Delivery, complaints during / Development of genitalia delayed / Diphtheritic exudations / Discoloration, uterus, cervix, purple / Displacement of uterus / Dropsy (swollen): ovaries, uterus / Dryness, vagina / Enlarged: ovaries, uterus / Eruptions / Excoriation: perineum, vagina / Excitability of genitals / Excrescences, uterus / Erysipela / Fetus: arrest of development, dead, motions, positions / Fistula at vagina / Flatus from vagina / Fullness: uterus, vagina / Gangrene: uterus, vagina / Granulation, vagina / Hair falling out / Handling genitals / Hardness: ovaries, uterus / Hydrosalpinx / Induration: ovaries, uterus, vagina / Infantilism, genital / Inflammation: labia, ovaries, uterus, vagina / Insensibility of vagina / Irritation: clitoris, ovaries, uterus, vagina / Itching: clitoris, uterus, vagina, vulva / Leucorrhoea / Lochias / Lying agg. uterine symptoms / Masturbation, disposition to / Menopause / Menses / Metrorrhagia / Moisture / Moles / Nodules, vagina / Os Uteri during labor / Pain / Placenta: praevia, retained / Polyps: uterus, vagina / Pregnancy / Prolapsus: uterus, vagina / Pulsating: ovaries, uterus, vagina / Redness / Relaxation of sphincter vaginae / Rigidity of os during labor / Sensitiveness: uterus, vagina / Sepsis puerperalis / Shocks: uterus, vagina / Soft, uterus / Sterility / Sub involution / Swollen: clitoris, labia, ovaries, uterus, vagina / Tingling, voluptuous sensation / Perspiration / Tubercles / Tumors: ovaries, uterus, vagina / Twitching / Ulcers: uterus, vagina / Veins, varicose.

Obs.: _____

Hierarchization of the Homeopathic Symptoms in Serious Acute Cases

- 1) Etiological, clinical and anathom-pathological diagnosis.
- 2) Usual and pathognomonic symptoms of the acute disease with its typical modalities.
- 3) Local, mental and general symptoms, which emerged or suffered modification with the acute disease.
- 4) Symptoms or causalities that broke out the acute disease (biopathographical symptoms).

Selected homeopathic medicines: _____
